

The image shows three chocolates wrapped in crinkled gold foil paper, resting on a light-colored, speckled surface. One chocolate is in the foreground, slightly to the right, and is the most prominent. Two other chocolates are behind it, one to the left and one to the right, both slightly out of focus. A semi-transparent white horizontal band is overlaid across the middle of the image, containing the brand name and other text.

CHOCOGIL, THE "CHAMPAGNE TOUCH"

Since its creation, CHOCOGIL is located in the region Champagne.

Thus, it has been able to pick closely, in the heart of the famous vineyard, the best brandies used to manufacture these chocolates that made its fame.

Marc de Champagne, Fine de la Marne or Ratafia Champenois, for its so renowned chocolate bouchons of course, but also for some typical other specialties, elaborated in the chocolate tradition.

Its recipe has not changed since this time.

Its ingredients still remain the same: a 70% cocoa dark chocolate, a liqueur made from the best brandies and a very thin sugar layer which conserve all flavours inside the chocolate.

Its manufacturing also stays the same: a liqueur capsule, a like a champagne cork chocolate mould and...our know-how.

Application of the general terms of sale

Every customer placing an order to CHOCOGIL, in whatever form (mail, telephone, fax, e-mail) - either directly or through a sales representative - acknowledges having read and agrees these general terms of sale without restriction nor reserve before confirming its order.

These general terms of sale have force of law and govern the contractual relations between CHOCOGIL and the customer. They predominate on any other condition.

Prices

Our prices are indicated EX WORKS in euro (€) and per unit (1kilo - 1 bag - 1 box - 1 unit).

For information, the common choice of *Ex Works* Incoterm means that the customer shall pay all the costs of freight and customs charges. That also included all the risks inherent in transporting the wares to their final destination.

The customer must also coordinate all the administrative procedures and must pay these taxes : reporting goods to customs, delivering documents to the customs (import and export cases) and the payment of export / import taxes.

The customer selects itself the transport logistics.

In case where CHOCOGIL coordinates the transport, CHOCOGIL will pay delivery costs for orders of 24 kg / 120 bags (or equal) or more.

For orders of 24 kg / 120 bags or less, the delivery costs are freight prepaid (carriage forward).

Our pricelist is valid for the whole calendar year (from 1 January until 31 December). In the case of price rising during the year, CHOCOGIL will inform its customers of updated prices.

Terms of payment

For each order, a proforma invoice is beforehand sent to the customer by e-mail. The amount could be disclosed by phone.

By default, we accept only international bank transfer as means of payment.

Wares are shipped only when CHOCOGIL received the confirmation that the sum corresponding to this proforma was well fully deposited in our bank account.

Because of the advance payment, a discount of 2% is granted. This discount is based on the value of the wares.

Force Majeure

The emergence of a case of absolute necessity could have the effect of suspending the execution of the contractual obligations between Chocogil and the customer.

Delivery deadlines

The delivery deadlines are given simply for information, without guarantee. A delay does not permit the buyer to cancel the sale, to refuse the goods or to claim for damages.

Complaint

Our customers must verify our packages on arrival. We will not be able to accept any complaint 10 days after the date of receipt.

Our goods always travel at the risk of the customer, even though they have been sold carriage free.

In case of disagreement, the Commercial Court of F.52000 Chaumont will be only competent.
